Description

- Bisa diakses pada rb.bpskaltim.com
- Ada sintaks yang dirubah pada file index.php

Mulai baris 7 diubah menjadi:

```
$stmt = $conn->prepare('SELECT username, password, role FROM
users WHERE username=? AND password=?');
$stmt->bind_param('ss', $username, $password);
$stmt->execute();

$stmt->store_result(); // penting
if ($stmt->num_rows == 1) {
    $stmt->bind_result($db_username, $db_password, $db_role);
    $stmt->fetch();

    $_SESSION['username'] = $db_username;
```

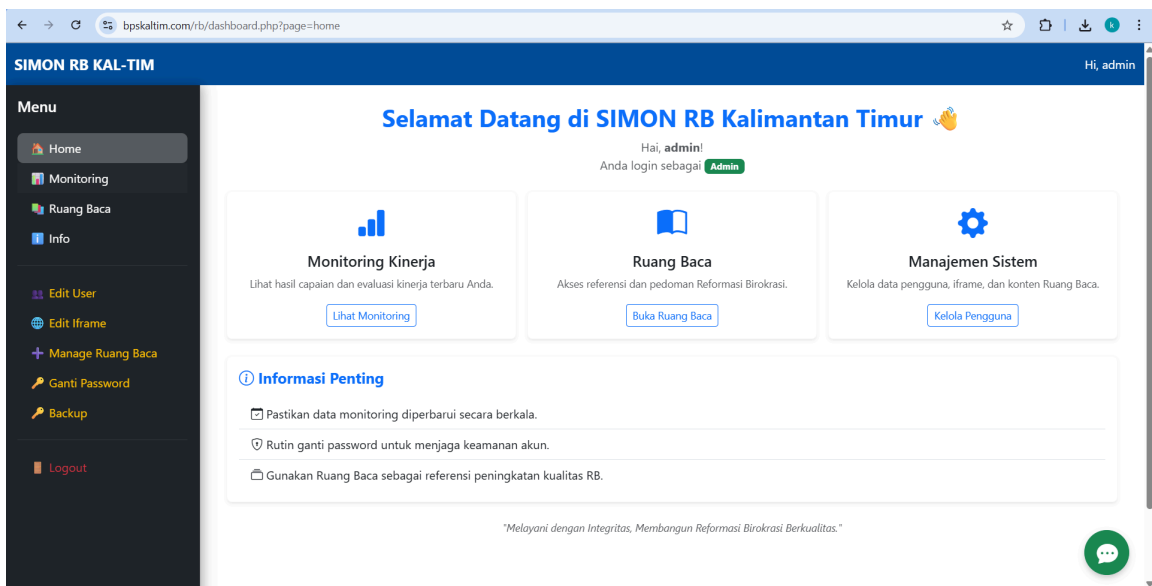

```

$_SESSION['role'] = $db_role;

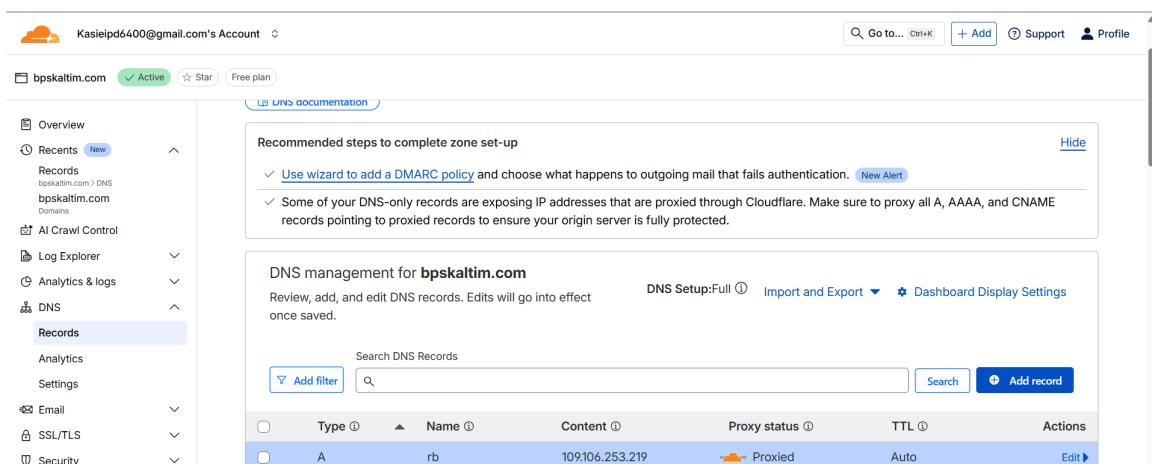

header('Location: dashboard.php');
exit;
}
else {
    $message = '<div class="alert alert-danger mt-3">Login ga
gal!</div>';
}

```

- Screenshot website

- Setting cloudflare

- Perubahan sintaks pada dashboard.php line 20 fungsi get_iframe

```

function get_iframe($conn, $username, $type) {
    if (!isset($conn) || !$conn) {
        return 'about:blank';
    }

    $stmt = $conn->prepare('SELECT url FROM iframe_links WHERE username=? AND iframe_type=? LIMIT 1');
    if (!$stmt) {
        return 'about:blank';
    }

    $stmt->bind_param('ss', $username, $type);
    $stmt->execute();

    // WAJIB: gunakan store_result + bind_result (pengganti get_result)
    $stmt->store_result();

    if ($stmt->num_rows === 1) {
        $stmt->bind_result($url);
        $stmt->fetch();
        $stmt->close();
        return $url;
    } else {
        $stmt->close();
        return 'about:blank';
    }
}

```

- migrasi selesai. apa selanjutnya?
